CASE DESCRIPTION / SUMMARY

Facts:

The petitioner received a show cause notice dated 12.06.2024 proposing levy of tax and penalty for the tax periods 2018-19 to 2020-21. The petitioner challenged the notice before the High Court contending that a single show cause notice cannot be issued covering multiple assessment periods or financial years.

Court Decision:

The High Court held that assessment proceedings for each taxation period or financial year must be initiated through separate show cause notices. Since the impugned notice covered multiple taxation periods in a single show cause notice, the Court set aside the notice following the earlier judgment of the same Court. The writ petition was allowed with liberty to the authorities to initiate proceedings in accordance with law.
